Choose from our virtual wine tasting hosts to host your virtual wine tasting experience. Tastings last 30-75 minutes, with most ranging 45-60 minutes. All hosts provide the same core experience, leading you through a tasting on Zoom or similar platform of your 5 wines. The tasting covers tasting notes, the winemaking process, & food pairings as well as music, lifestyle, and literary pairings. All tastings are engaging & interactive. We focus on creating an experience that elevates the mood and experience with just the right mix of class & fun, while bringing your group together and building rapport through a shared experience.

Cecilia Barretto | \$150

Wine Personality & Virtual Tasting Host

Cecilia Barretto is a wine expert, but not the snobby kind, more like a female version of the Anthony Bourdain kind (RIP). She has been studying (read: drinking) wine since 2002, the wine bug bit her when she was 18! Thanks to a really great fake ID, she learned and tasted as much as she could throughout college. She then moved to Burgundy to pursue her Masters in Wine Business. She is half an exam away from her WSET Level 4. She's had a wine shop, worked at a winery, and as a sommelier, & now she owns her own wine edu-tainment business in San Antonio, TX. She LOVES to cook, is a music junkie, meditates daily, & pole dances for fitness.

Jerome Luther | \$150

Director of Operations

Jerome manages daily shipping operations at Voluptuary and has been hosting tastings with us since 2017 at our public tastings. He is also a major foodie & cook and is great for groups with a special interest in food pairing. His tastings are especially fun, with a special twist of Jerome's light-hearted attitude & sense of humor.
