ADD-ON ACTIVITIES

Each activity is an additional \$10 per person

BINGO

We create unique bingo cards for all attendees which are distributed by email beforehand. The bingo squares are composed of common wine terms or things we mention during our wine tastings. The bingo activity tends to result in an active chat section during the tasting, and keeps people engaged and lively. There are lots of winners, as we make the bingo cards quite achievable, so there are a lot of exciting "BINGO" moments. We find this to be the best fit for events looking to have fun and build rapport. This is also a great fit for groups with less wine experience or knowledge.

TRIVIA

Before each wine over the course of the tasting, we pose the trivia question. Attendees put their answers in the chat section. The trivia questions are accessible and not too difficult, so even beginners can participate and have fun. We also make the trivia questions conversation starters, so this leads to a lot of good questions and fun interactions. We find this to be the best fit for events looking to have fun and build rapport in a slightly more serious style (but not too serious). It strikes a good balance for team-building or VIP events.

WINEMAKER'S SECRETS W/OPT BLIND TASTING

This is a more educational and serious add-on for those looking to gain more insight & knowledge on wine tasting like a pro. Best for smaller groups looking to learn about the wine tasting process. This add-on is only available with Owner & Winemaker Kevin Luther

IN PERSON TASTING

We come to you! Let's host a fun and interactive...office happy hour, team building, company milestone, or team social hour! Pick your wine kits & add-ons. Set your time & date & we bring the event straight to you! +10/pp & +\$50 flat, with service, limited to the Sacramento, CA area. Events beyond 20 miles of Sacramento are available at \$50/hour

TAKE A "FIELD SIP"
